# AI POWER THERMAL INTELLIGENT SCANNING

POWERED BY ARTIFICIAL INTELLIGENCE FROM DWP GLOBAL TECHNOLOGY

---

**uScann Is An  
Artificial Intelligence Based Thermal Imaging  
Scanner With Many Extra Capabilities Such As  
Intelligent Employee And Visitor Tracking And  
Existing Systems Compatibility. These Features And  
More Make uScann BT983 The  
Best Investment For Any Size Enterprise**

Easy to install and integrate to existing security systems such as door locks and biometric entry systems. Powered by Artificial Intelligence, as well giving accurate body temperature readings and give personalized alerts; your uScann BT 983 camera can see when unauthorized individuals enter an area or room without clearance and alert Security.

Relatively fast and easy to install, uScann BT983 does not require any assembly or expert I.T. to get running. Simply unbox, power up and configure. Set it where you need it - uScann B983 can be permanently mounted on a surface or wall or vertical surface such as stairwell doors or elevators. A popular use is also set on reception or lobby desk.

**The use is virtually limitless, flexible to suit your particular needs.**

## Specifications

Temperature Range: 30°C to 45°C (86°F to 113°F)  
Sensor: Omron Sensor  
Resolution: 120 x 160  
Frame Rate: 25 fps  
Measurement Accuracy: +/- 0.3°C  
Measurement Deviation: +/- 0.5°C,  
without black calibration body  
Measuring Distance: 0.3 to 1.8 meters  
8" LED Display With Integrated HD Camera  
Quad Core Processor  
2GB / 4GB RAM With 16GB Built-In-Storage

**uScann uses advanced facial recognition combined with blackbody reference to measure human body temperature.**

✓ Enterprise clients such as franchisees with multiple locations or even logistic and public transportation greatly benefit from customizable admin and access settings so that each uScann BT983 unit operates independently and in network while limiting user access based on staff role.

✓ Imagine being able to set up a tracking system across your entire building(s) to help keep your staff, visitors and others in attendance safe - All while also increasing the overall security and human resources of your company day in and day out. Our scanner doesn't just help prevent the spread of infections and diseases by helping maintain proper head count but also helps improve a company's bottom line.

**Affordable For All Businesses and All Industries.**

### Recommendations For Best Use

Use in a draft-free space and out of direct sun or near radiant heat sources. Allow device to adjust to environment before use.

Space temperature recommended between 60.8-104°F (16-40°C) with low humidity below 85%.

Distance recommended for reliable measurements is not to exceed 1.8 meters.

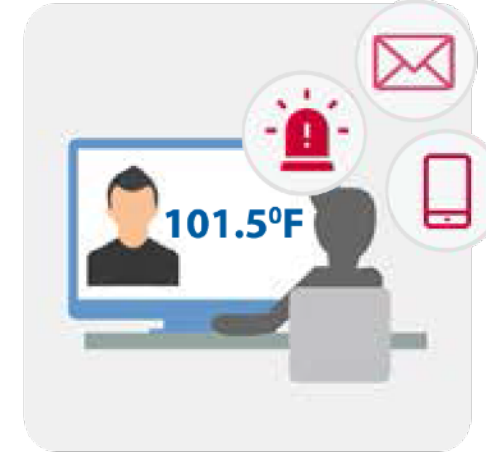

Do not touch sensor/camera area of device during use.

Install In Entry Ways,  
Workspaces, Public  
Transportation,  
Universities,  
Classrooms,  
Warehouses, And  
Many Other

Non-Invasive,  
Contact-Free  
Scanning Device With  
Additional Enterprise  
Solutions and Services  
For All Industries.

Automatic Alarms,  
Reporting, Staff and  
Visitor ID Tracking  
And Smart Compiling  
and Customization  
For All Active  
Devices

Advanced Analytics,  
Easy To Download  
From The Cloud,  
Combine All Data  
Across All Devices  
And Run Reports  
From Dashboard

## HELP PREVENT FUTURE PANDEMICS LIKE SARS OR COVID-19

**uScann will monitor employees and visitors throughout premises, set it in entry ways of restricted areas in hospitals or nursing homes and child care facilities.**

**Whenever the body temperature higher than your preferred threshold it will notify responsible parties so that you can follow up immediately.**

Stay open - Each device installs in 15 minutes or less.

Qualifies for current government emergency funds for certain entities.

Comes with unmatched 1 year full hardware warranty and support.

uScann is a true partner solution - We are here to help deploy custom enterprise solutions as needed.

BT 983

✓ 4G/5G Enabled If Internet Is Not Available

✓ Designed For Precise Measurements

✓ Perfect For Doors, Elevators, Stairwells, Checkpoints and More

FEATURE		DESCRIPTION	PRO	PREMIUM	ULTRA
Measurements	Contact-less Body Temperature Scanning	Detects Individual's Body Temperature	✓	✓	✓
	Ai Face Detection	Finds/Recognizes Faces To Scan For Temperature	✓	✓	✓
	Ai Capture Image Of Trigger Person	Stores Image And Assigns To Person's Profile	✓	✓	✓
	Ai Detects Multiple People Simultaneously	Reliable Readings Even With Multiple People In Focus	✓	✓	✓
	"Safe Distance" Temperature Readings	Accurate "Social Distancing" Reading Capabilities	✓	✓	✓
	Out of Range Alerts	Asks To Adjust Position and Distance When Needed	✓	✓	✓
Alerting	Email Alert Capabilities	Sends High Temp. Alerts Via Email(s)	✓	✓	✓
	Alarm Sound Alerts Integrated	Audible Beep With Adjustable Settings	✓	✓	✓
	Voice Alert Notifications	Sends Voice Alert With Adjustable Settings	✓	✓	✓
Client Portal / Analytics	Easy Historical Data Storage and Recall	Data Retained For "Temperature Trigger Follow Ups"	90 Days	1 Year	3 Years
	Convenient Dashboard Control	Access Analytics And Reports From Dashboard	✓	✓	✓
	Convenient Cloud Data Storage	Never Worry About Storage	24 Hr Cycles	3 Hr Cycles	Each Alert
	Data Consolidation From All Devices	Compiles Data From All Active Devices	✓	✓	✓
	Number of Admin User Accounts	Number Of Active Users	1	3	25
	Device Specific Access	For Safety Reasons Assign Device Access Independently		✓	✓
	Role Based Access Capabilities	Customize Access Based On Role		✓	✓
	Single Sign-on and Directory Sync	Staff Can Use Existing Company Credentials			✓
Flexibility	Versatile Setting/Mounting Design	uScann Can Be Mounted Or Set On Surfaces	✓	✓	✓
	Custom Temperature Settings	Customize Your Temperature Thresholds	✓	✓	✓
	Custom Visual And Audio Alarms	Customize Message To Align With Your Environment	✓	✓	✓
Compatibility	Download and Export All Data	Data Exporting To .csv Files For Additional Integrations	✓	✓	✓
	Triggered Alarms Saved To Individual	Adds Trigger Event To Staff ID For Future Follow Ups		✓	✓
	API Access / Web Hooks	Integrates With APIs And RESTful Services/Realtime Push Syncing		✓	✓
	Re-Branding With Client User Logo	Personalize "Customer Facing" Devices With Your Brand			✓

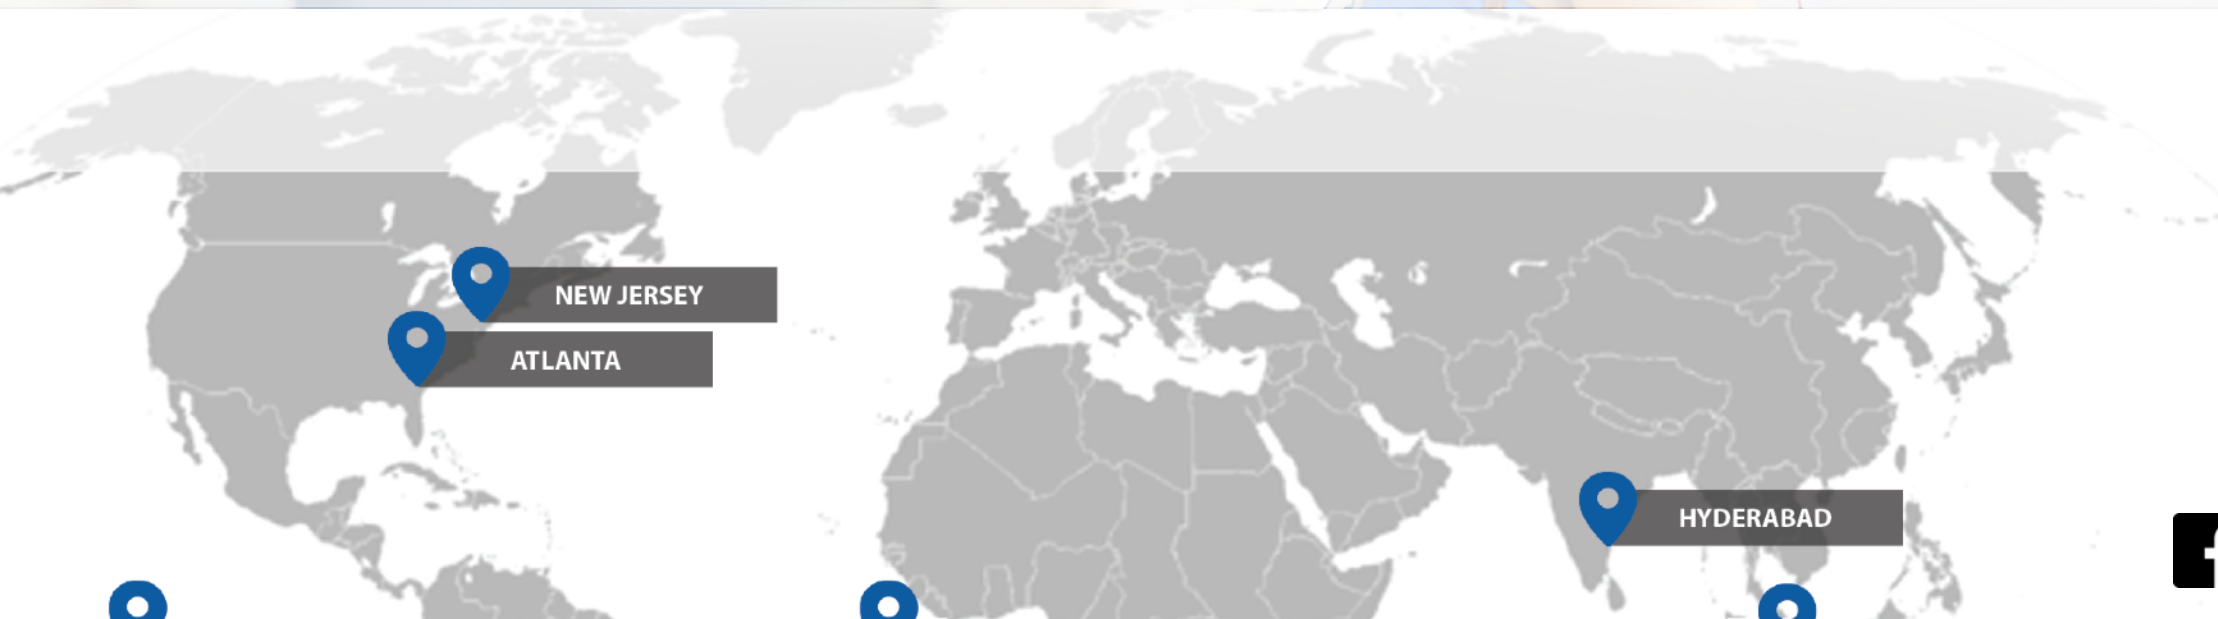

#### ADDED ENTERPRISE FEATURES AVAILABLE (MAY REQUIRE ADDITIONAL HARDWARE AND SOFTWARE)

✓	People Counting	Our Ai Technology Recognizes Individuals
✓	Facemask And Object Detection	For Added Safety Measures Ai Identifies Objects Such As Face Masks
✓	Visitor Management	Fully Integrated Visitor Management Module With Temperature Reading
✓	Attendance Management	Full Feature Employee Attendance Management With Temperature Reading
✓	Integration With Door Locks/Entry Systems	Integrates With Existing Door Locks And Biometric Entry Systems
✓	Restricted Area Clearances	Checks And Alerts When Unauthorized Person(s) Enter Restricted Areas
